High Standard Motion System

Anti-deformation structure supported by aluminum beam. The Igus chain and high-precision THK linear guide ensure stable and low noise movement.

Touch-Screen Panel

The user friendly touch screen panel and front and rear electric pinch rollers enable smooth operation, improving user experience and efficiency.

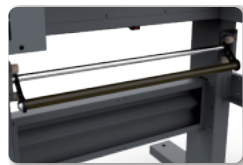

User-Friendly Design

Built-in LED lights for easy print inspection and maintenance. Front-mounted buttons, rotary knobs, and real-time data displays ensure convenient operation.

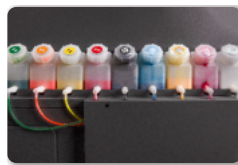

Convenient Moisturizing System

Built-in white ink moisturizing function allows one week of maintenance-free operation, intensively extending the life of print heads.

Active Tension Bar

Constant tension and fixed movement range ensure wrinkle-free printing and precise stepping. Reinforced structure prevents platform deformation during transportation.

Available with Fluorescent Solution

Fluorescent color scheme is popular for outdoor clothing and makes the color gamut range expanded to achieve unparalleled color performance.
