

MP D-DRY PP51 WHITE MATT P KR135

Face material

White polypropylene film with matt top coating specifically designed for laser digital printing.

Adhesive

Adhesive is suitable for general use in a wide range of surfaces, which have to be clean and smooth. It has excellent initial tack on normal surfaces and good light and UV resistance.

Backing Material

White, wood-free, one side coated siliconized paper.

Application and usage

Material is suitable for a wide range of substrates, generating a matt white coating. It shows very good adhesion, a high flexibility and crack resistance.

Converting

Product enables high quality results for laser printing, it's fine formulated coatings enable a high quality print design as well as rich and vibrant colours.
